2nd June, 2020

NOTE SHEET

This is to apprise that the ducting pipes in between the BPC sub-station Chubachu and MyMart building has been damaged at a distance of about 50 meters from the BPC sub-station side. The damage distance is about 15 meters at the area that has been caused by the road widening work initiated by Thromde Office in earlier times. We have excavated the area and found out that, the existing ducting pipes are beyond repair and need to construct 2 Nos. of hand-holes by laying new ducting pipes in the area. Since the work was of utmost emergency where, the fiber cable laid inside the duct got damaged by rodents and many services were down, duct repairing work had to be initiated immediately after obtaining verbal approval from the General Manager, Operations.

However, we have called for sport quotation from the Contractors to awarding the repairing work but no one showed interest to take up the work other than M/s **Khatshakha Construction** and have to award the work to them. They have completed the duct repairing work and handed over to us formally. As such, attached herewith is the cost estimate amounting to Nu. 74,385.46/= for construction of 2 Nos. hand holes, laying of ducting pipes and repairing work of the joint box near RAPA office which may be paid to the Contractor. As an emergency measure, we have pulled fiber cable over the street lamp post due to damage of ducting pipes which is required to be laid and routed properly inside the repaired ducting pipe.

Therefore, RD Sir is hereby requested to kindly pursue approval from the Management to release payment to the Contractor. The budget may be met from "R & M- Cable and Accessories-Services" of WR.

Submitted for kind approval.

RD, Western Region.

Since the work was awarded to m/s Khatshakha Construction based on the emergency on ground to restore services, the payable amount of Nu. 74,385.46/- may be approved and payment released.

Senior Manager (OSP)  
Western Region  
Bhutan Telecom Ltd.  
Thimphu : Bhutan

GM (Operations).

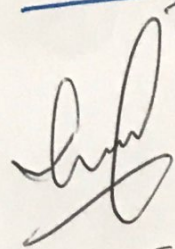

There was fiber damage disrupting all the services including mobile and leased line services towards Lungsphu & Basen areas. In order to restore the services, civil works were taken up immediately on emergency. Therefore, recommended for approval of Nu. 74,385.46/- for the work executed on emergency.
